Stem 16mm Ø

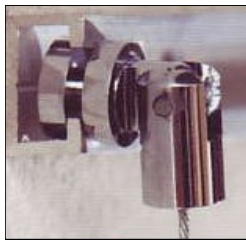

Picture Hanging System

PICTURE HANGING SYSTEM

The Aluminium track is fixed to the wall at the desired height or onto the ceiling. The swivel fitting simply slides in the end of the track at the desired location. Set the AUTO hook fitting at the required height with the touch of a button and your artwork is now ready to hang.

The system allows for infinite adjustment with no tools required. Additional hook fittings are available to hang more than one picture in a vertical drop.

Hanging Kit: includes swivel top fitting with cable and 1 x auto hook fitting.

900mm cable

2000mm cable

Additional Hook Fitting

Aluminium Mounting Track
4000mm Anodised

SWIVEL WALL SYSTEM

Used in conjunction with floor to ceiling cable kit.

Swivel fitting
HCK-1B

Suspense System - Steel Rod

Based on a similar concept to the proven performance of the cable kits, the rod display system offers certain advantages due to its additional rigidity. The chrome plated steel rod comes in 1 meter lengths that can be simply joined together and trimmed to make up the exact length required.
