Poster Stands

Mall Stand is a top quality display system with a round spun base. As the name implies this stand is used in all the major up-market malls in Australia. These units normally have chrome bases, but if you want a more economical version, they can be supplied with a silver powder coated base. The mall stand is fitted with a double sided EASY LOADER snap frame. Sizes vary from A4 to A0.

As we get many requests for A4 and A3 frames mounted on a stand, we have designed a more economical ECONO MALL STAND for these smaller frames

MALL STAND

SIZE: A4 to A0

Executive Display Stands are professional free standing displays fitted with either EASY LOADER snap lock display frames or EASY LOADER light boxes.

These exclusive looking display stands can be single sided or double sided and are normally fitted with 3 off A3 snap lock poster frames or light boxes, but can also be fitted with one or more frames to any size you require. These can be either landscape or portrait. This stable display unit is ideal for use in malls, foyers, exhibitions centres, reception areas and trade shows.

EXECUTIVE DISPLAY STANDS

Poster Displays

Adjust A Stand

Poster stand for indoor use.
